

# 40 Series Cutlery

## Individual Part Length

Fork	Knife	Teaspoon	Soup Spoon
6.2"	6.2"	5.6"	5.1"

# **A New Generation of Cutlery!**

Max Packaging's new 40 Series cutlery is more modern and competitive compared to classic cutlery designs, while meeting higher manufacturing standards going into the future. Please read the following benefits of this new stacking cutlery and feel free to contact us for any further concerns!

## **Modern Design**

- 40 Series was created using the latest in computer-aided design software and techniques. Although this creates a lighter part, it allows 40 Series to be especially robust and efficient compared to our previous B Series!

## **More Functional Fork**

- Our 40 Series fork uses an updated tine and edge design. The tines have a more pointed and gradual shape, while the edge of the fork has a similar cutting profile. These improvements allow the fork to pierce and cut food in ways classic designs simply cannot match!

## **Exclusive Knife Teeth**

- Our 40 and 60 Series knives use a Max Packaging patent pending design. This unique scalloped cut design reduces teeth wear, cutting effort, and bogging while still cutting in both directions. This adds up to our most impressive performing knife yet!

## **100% Polystyrene Plastic**

- This new cutlery uses no filler and is made from 100% polystyrene plastic. This improves the part's gloss, consistency, and color creating an attractive and tasteful cutlery series!

## 40 Series Medium Polystyrene Bulk (Oriented)

Item ID	Description	Count	WT (lbs)	Cube	Length	Width	Height	TI	High
